A login form interface within a rectangular frame. At the top center is the text "Login". Below it are two text input fields: the first is labeled "Username" and the second is labeled "Password". Below the password field is a button labeled "Login".

## Login Scene

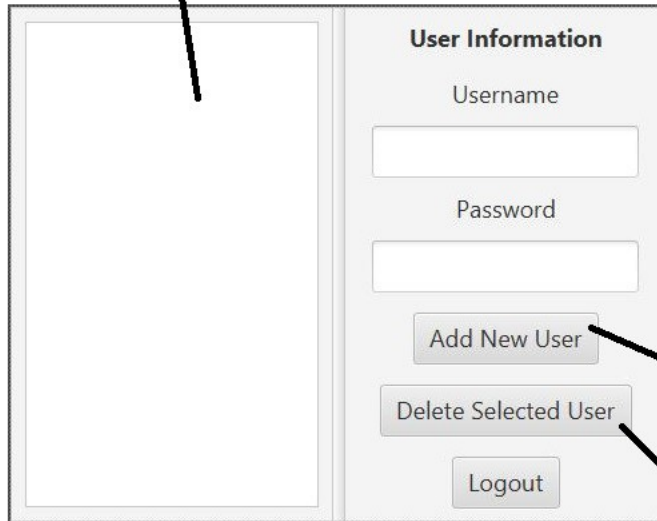

Displays requested input in 2 textboxes

Upon hitting "Login" button, checks if user exists

If user exists, load albums from user and direct to main scene

Can close through exit button

Listview containing usernames and passwords

The diagram shows a user interface for an admin scene. It is divided into two main sections. On the left is a large, empty rectangular box representing a listview for usernames and passwords. On the right is a panel titled "User Information". This panel contains two text input fields, one labeled "Username" and one labeled "Password". Below these fields are three buttons: "Add New User", "Delete Selected User", and "Logout".

## Admin Scene

Textboxes display selected user info

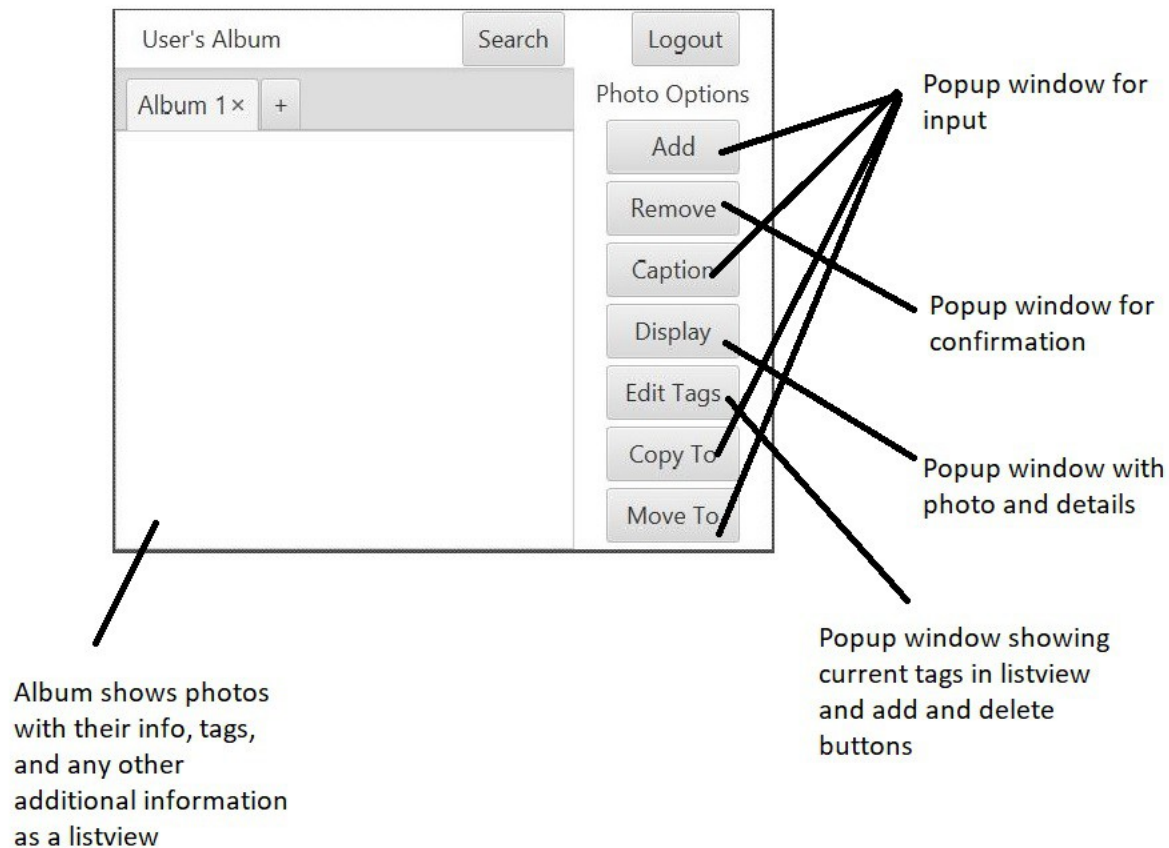

"Add New User" button pops up a new window asking for input

"Delete Selected User" button pops up a new window for confirmation

"Logout" button directs the admin back to the login scene

Popup window

Popup window

## Main Scene

Display user's name at top to show who is logged in

Albums are displayed in tabpane, can be deleted using x button next name and created using + button

"Add", "Caption", "Copy To", and "Move To" buttons will create a popup window that asks the user for additional input

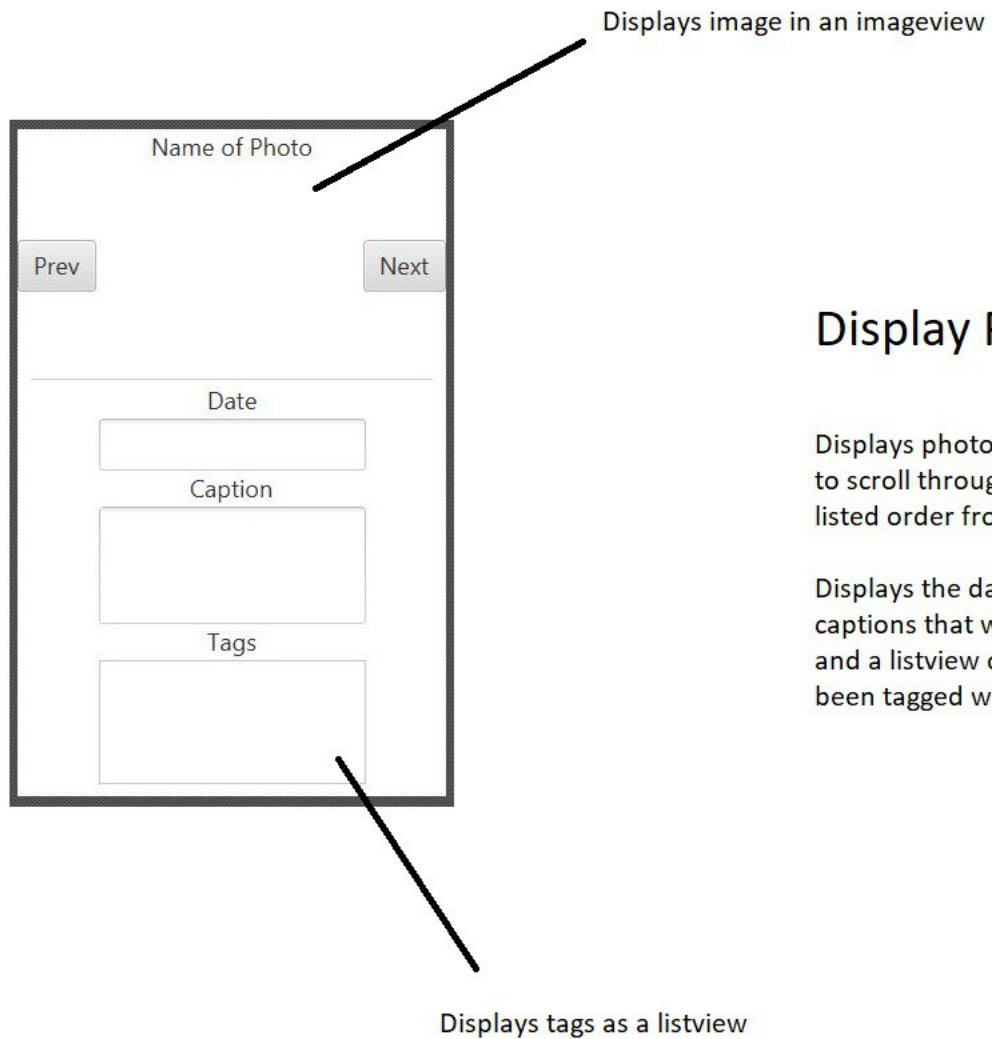

"Remove" will create a popup window that asks the user for confirmation

"Display" will create a new window that displays the selected photo as well as additional information

"Edit Tags" will create a popup window that displays the selected photo's current tags and allows the user to add or remove any tags

"Search" will create a popup window that asks the user where to search along with any info the user wants to search by.

"Logout" will direct the user back to the login display

## Display Popup

Displays photo from album and gives option to scroll through previous or next photos in listed order from album

Displays the date the photo was taken, any captions that were associated on the photo, and a listview of tags that the photo has been tagged with
